Latest Certifications

AZ-305 [Azure Solutions Architect Expert](#)

AZ-104 [Azure Administrator Associate](#)

Skills

Cloud Platform Engineering **Azure Kubernetes Service**, Azure RBAC
Private Endpoints, Hub&Spoke, Private DNS
Azure Recovery Services Vault with SAP HANA
ArgoCD on AKS with private gitlab and artifactory

Data Integration Azure Data Factory, DataBricks, Azure HDInsight
Kafka, Zookeeper, Cassandra
Microsoft SQL Server **ETL** with Common Table Expressions

Programming experience

Python3 Using AzureRM Python SDK to deploy complex environments
Writing **code generators** for kubernetes resources:
ingress, k8s secrets, configmaps, deployments

Bash Developing shell scripts for generating azure-cli commands
to build **minimum viable product** cloud deployments

GNU Makefiles Vendor-agnostic, locally runnable CI/CD pipeline design

Terraform Terraform Enterprise
TF AzureRM Provider, TF Kubernetes Provider, [tfk8s](#)

Education

English, German **C2** (native or bilingual proficiency)

2004 - 2007 Fachhochschule Trier, DE
Applied Computer Science

1997 - 1999 CASO Consulting, Hallbergmoos, Bavaria, DE
Fachinformatiker Systemintegration

Work Experience 2014 - current

- 2024 - current NTT DATA Deutschland SE, Munich, DE
Managing Technical Consultant
Planning and implementation of application platform
Implementation of Azure application landing zones
Architecture consulting for migration factory
Enterprise application management
Preparing migration strategies for decision makers
Rehost, Refactor, Rearchitect, Rebuild
Azure PoC for running international bank transfers
Kafka and java-based payment processing in AKS
Azure PoC to generate financial market statistical data
German public sector
German banking sector
European Central Bank
- 2017 - 2023 Inovex GmbH, Pforzheim, DE
Cloud Platform Architect
Planning, designing and building data science platforms
Public and private clouds
Migration of on-premise b2b bank risk management models
Azure HDInsight, Apache Hive
Microsoft Entra Domain Services (AD DS), Single-Sign-On
World-wide factory sensor data analytics solution
Custom Azure Python SDK based framework
Design and implementation of analytics platform
Point-of-sale data of all EU Kaufland and **Lidl** stores
Kubernetes operator development
OpenStack cloud STACKIT
Implementation of concourse-ci CI/CD platform
STACKIT Kubernetes Engine
IT operations in KRITIS energy sector companies
- 2014 - 2016 Midokura, San Francisco, USA
Sales Engineer
Distributed L4 loadbalancing, distributed L2, distributed L3
VTEP, Tap-as-a-Service, FWaaS, Neutron Plugin, BGP
Brocade, BigSwitch and Cumulus Linux based 10/50/100Gbit
Building in-house installer for OpenStack PoCs
Planning and delivering proof-of-concept installations
Creating value propositions for MidoNet sales team
Preparing product demos for OpenStack summits
Integration of network virtualization with hardware vendors
Turn-key private cloud IaaS solutions based on IBM and Dell
Joint sales activity in Germany with Fujitsu and Suse Linux
Nokia, Elisa.fi, Deutsche Telekom, Syseleven, Bundeskriminalamt

Work Experience 2007 - 2013

2008 - 2013 Inovex GmbH, Pforzheim, DE

IT Engineering, IT operations

Configuration Management, Software Deployments
Varnishd, Haproxy, Puppet, Zabbix, Nagios Monitoring
Scripting of monitoring plugins (JSON, JMX, XPATH)
Hadoop Cluster Operations
Administration of web server clusters
Prosieben, Sat1, Kabel1

Business Intelligence

Planning and implementation of data warehouses
MicroStrategy 8.1.2 ROLAP, Pentaho Data Integration
Microsoft SQL Server 2008 SSIS SSAS SSRS
Integration Services, Analysis Services, Reporting Services
Kimball Data Warehouse Patterns, Dimensional Modelling
Pentaho ETL Development, Java BIRT Reporting

2008 Active Mining AG, Augsburg, DE

Business Intelligence

Development of internet-based Monte-Carlo-Simulation-as-a-service
SaaS platform to forecast the viability
of business plans for german companies
Project management for off-shore development team
C#, ASP.NET, Microsoft SQL Server 2005/2008
Microsoft Reporting Services 2005
ADO.NET, AJAX, JavaScript

2007 - 2008 Berlitz, Frankfurt/Main, DE

IT Administration, Project Management

IPLS migration for 60+ sites, 600+ users
Hot-standby firewalls (pfsense/FreeBSD)
Suse Linux pop3/smtp to MS Exchange 2007
Single Copy Cluster, CAS servers
Windows 2003, Dell Servers, SAN storage
Postfix and Exchange Hub transport servers
Exchange Mailbox Cluster
Exchange Client Access Servers with IIS
Outlook Anywhere (RPC@HTTP), Outlook Web Access
Blackberry Enterprise Services
Group policy objects and active directory OU
Mail policies, distribution lists
Automatic user migration **scripts**, mail forwarding

Work Experience 1999 - 2007

2007 KREIOS S.a.r.L, LU

Software Development

C#, openArchitectureWare

Model driven software development with **partial classes**

Integration of multi- tier .NET design patterns

PostGIS, .NET Topology Suite

Expression Blend, WPF, code-behind

Business and persistence layer

CSLA.Net business objects

2004 - 2006 r/ft Fachhochschule Trier, DE

Software Development

Development of in-house Student Information System

ETL scripts with Perl and Shell scripting

Database exports, Xml- based, File- based Sources

JBoss application development with persistence beans

SAX Parsers and XML Perl Modules on IBM AIX

NIS/yp authentication module for TYPO3

1999 - 2004 Memorex Systemhaus GmbH/Systematics/EDS, Munich, DE

IT Engineering, IT Operations

IBM xSeries Servers

DEC StorageWorks

Fibre Channel SAN Switches

NT4 Clustering, Win2000, Active Directory

Lotus Notes Migrations from 4.x to 5.x

Thuringia/Generali, DBV-Winterthur,

DEVK, Sony, Landeszentralbank Bayern, Linde AG

Bayrische Rueckversicherung, Hoechst

AT Kearney (ATK), LV1871

1999 CASO Consulting, Hallbergmoos, DE

IT administration, Network administration

Installation and maintenance of **SAP R/3** on Windows NT4.0

Oracle database configuration and maintenance

Siemens RM/400 Sinix

ABAP/4 report programming

Deployment of ipfwadm, ipmasqadm based Linux firewalls

Administration of Ascend and Cisco network equipment

Development of in-house accounting for ISP customer traffic

using binary C structs of NeTraMet traffic logs

Open Source Contributions

2022 [YaooK](#) OpenStack project

Platform Engineering

Development of Python3 code and CRDs for k8s operators to provide Neutron, OVS, OVN and ovsdb-server as containerized workload

2021 SAP [Gardener](#)

DevOps Engineering

Bugfixes for upstream POSIX shell scripts to deploy gardener on kubernetes

1999 - 2003 [Gentoo Linux](#)

Linux kernel, gcc, binutils

Integration of PaX and grsecurity patches in kernel packages

Integration of IBM SSP and Redhat buffer overflow

protection patches in gcc package

Development of next-generation return address protection

Porting of kernel hardening and compiler hardening

patches to RISC architectures

Development of Gentoo ebuilds and patches

Documentation and guides for ELF, PIE and PIC code
