Certifications

AZ-305 [Azure Solutions Architect Expert](#)

AZ-104 [Azure Administrator Associate](#)

Skills

Cloud Platform Engineering **Azure Kubernetes Service**, Azure RBAC
Private Endpoints, Hub&Spoke, Private DNS
Azure Recovery Services Vault with SAP HANA

Data Integration Azure Data Factory, DataBricks, Azure HDInsight
Kafka, Zookeeper, Cassandra
Microsoft SQL Server **ETL** with Common Table Expressions

Programming experience

Python3 Using AzureRM Python SDK to deploy complex environments
Writing **code generators** for kubernetes resources:
ingress, k8s secrets, configmaps, deployments

Bash Developing shell scripts for generating azure-cli commands
to build **minimum viable product** cloud deployments

GNU Makefiles Vendor-agnostic, locally runnable CI/CD pipeline design

Terraform Terraform Enterprise
TF AzureRM Provider, TF Kubernetes Provider, [tfk8s](#)

Education

English, German **C2** (native or bilingual proficiency)

2004 - 2007 Fachhochschule Trier, DE
Applied Computer Science

1997 - 1999 CASO Consulting, Hallbergmoos, Bavaria, DE
Fachinformatiker Systemintegration

Work Experience 2014 - current

- 2024 - current NTT DATA Deutschland SE, Munich, DE
Managing Technical Consultant
Azure PaaS layer projects in german public sector and financial institutions
Planning and implementation of **AKS** environments
for running european central bank workloads
Prototype of Azure based solution for moving kafka-based
payment processing software from on-premise to the Azure cloud
Migration of existing data center environments like SAP-BW
and container workloads to Azure application landing zones
- 2017 - 2023 Inovex GmbH, Pforzheim, DE
Cloud Platform Architect
Planning, designing and building data science platforms on
public and private clouds
Migration of on-premise b2b bank risk management models to
Azure HDInsight
Cloud architecture and rollout of world-wide factory sensor
data analytics solution
Deployment via custom Azure Python SDK based framework
developed in-house
Design and implementation of analytics platform for running
data science projects
on the point-of-sale data of all EU Kaufland and **Lidl** stores
Kubernetes operator development for the largest german
OpenStack cloud STACKIT
Setup of CI/CD platform based on concourse-ci for
STACKIT Kubernetes Engine
IT operations for Linux virtual machines in data centers of
KRITIS energy sector companies
- 2014 - 2016 Midokura, San Francisco, USA
Sales Engineer
Building proof-of-concept installations and winning customers
for MidoNet overlay network virtualization
Creating value propositions around best-in-market VLAN, VXLAN,
VTEP and Tap-as-a-Service features
Working with Brocade, BigSwitch and Cumulus Linux based
10/50/100Gbit switches
Fully distributed layer 4 loadbalancing at the edge
Developing Python3 framework for deployments of OpenStack
Services inside Kubernetes undercloud
Nokia, Elisa.fi, Deutsche Telekom, Syseleven, Bundeskriminalamt,
Dell, Lenovo, IBM

Work Experience 2007 - 2013

2008 - 2013 Inovex GmbH, Pforzheim, DE

IT Engineering, IT operations

Configuration Management, Software Deployments

Puppet, Zabbix, Nagios Monitoring

Scripting of monitoring plugins (JSON, JMX, XPATH)

Hadoop Cluster Operations

Business Intelligence

MicroStrategy 8.1.2 ROLAP, Pentaho Data Integration

Microsoft SQL Server 2008 SSIS SSAS SSRS

Integration Services, Analysis Services, Reporting Services

Kimball Data Warehouse Patterns, Dimensional Modelling

Pentaho ETL Development, Java BIRT Reporting

2008 Active Mining AG, Augsburg, DE

Business Intelligence

Development of internet-based Monte-Carlo-Simulation-as-a-service

SaaS platform to forecast the viability

of business plans for german companies

Project management for off-shore development team

C#, ASP.NET, Microsoft SQL Server 2005/2008

Microsoft Reporting Services 2005

ADO.NET, AJAX, JavaScript

2007 - 2008 Berlitz, Frankfurt/Main, DE

IT Administration, Project Management

IPLS migration for 60+ sites, 600+ users

Hot-standby firewalls (pfsense/FreeBSD)

Migration planning and project management

Suse Linux pop3/smtp to MS Exchange 2007

Single Copy Cluster, CAS servers

Windows 2003, Dell Servers, SAN storage

Postfix and Exchange Hub transport servers

Exchange Mailbox Cluster

Exchange Client Access Servers with IIS

Outlook Anywhere (RPC@HTTP), Outlook Web Access

Blackberry Enterprise Services

Group policy objects and active directory OU

Mail policies, distribution lists

Automatic user migration **scripts**, mail forwarding

Work Experience 1999 - 2007

2007 KREIOS S.a.r.L, Luxembourg, LU

Software Development

C#, openArchitectureWare

Model driven software development with **partial classes**

Integration of multi- tier .NET design patterns

PostGIS, .NET Topology Suite

Expression Blend, WPF, code-behind

Business and persistence layer

CSLA.Net business objects

Test driven development, unit tests

2004 - 2006 r/ft Fachhochschule Trier, DE

Software Development

Development of in-house Student Information System

ETL scripts with Perl and Shell scripting

Database exports, Xml- based, File- based Sources

JBoss application development with persistence beans

SAX Parsers and XML Perl Modules on IBM AIX

NIS/yp authentication module for TYPO3

1999 - 2004 Electronic Data Systems, Munich, DE

IT Engineering, IT Operations

IBM xSeries Servers

DEC StorageWorks

Fibre Channel SAN Switches

Win2000 Active Directory Domain Controllers

Network migrations from IPX/SPX to TCP/IP

Cluster-, Fileserver-, Domain migrations

Lotus Notes Migrations from 4.x to 5.x

Thuringia/Generali, DBV-Winterthur,

DEVK, Sony, Landeszentralbank Bayern, Linde AG

Bayrische Rueckversicherung, Hoechst

AT Kearney (ATK), LV1871

1999 CASO Consulting, Hallbergmoos, DE

IT administration, Network administration

Installation and maintenance of **SAP R/3** on Windows NT4.0

Oracle database configuration and maintenance

Siemens RM/400 Sinix

ABAP/4 report programming

Deployment of ipfwadm, ipmasqadm based Linux firewalls

Administration of Ascend and Cisco network equipment

Development of in-house accounting for ISP customer traffic

using binary C structs of NeTraMet traffic logs

Open Source Contributions

2022 [YaooK](#) OpenStack project

Platform Engineering

Development of Python3 code and CRDs for k8s operators to provide Neutron, OVS, OVN and ovsdb-server as containerized workload

2021 SAP [Gardener](#)

DevOps Engineering

Bugfixes for upstream POSIX shell scripts to deploy gardener on kubernetes

1999 - 2003 [Gentoo Linux](#)

Linux kernel, gcc, binutils

Integration of PaX and grsecurity patches in kernel packages

Integration of IBM SSP and Redhat buffer overflow

protection patches in gcc package

Development of next-generation return address protection

Porting of kernel hardening and compiler hardening

patches to RISC architectures

Development of Gentoo ebuilds and patches

Documentation and guides for ELF, PIE and PIC code
